LANGUAGES	*Native:* Arabic *Fluent:* English
EXTRA SKILLS	Graphic Design | UI | UX
TRAITS	Communication | Flexible & Adaptable | Team Player

EXPERIENCE

HSTECH 📅 *Sep. 2022 - Present*
Fullstack Software Developer

- Collaborated on a **low-code no-code** platform (from scratch) using various technologies within the **Javascript/Typescript** ecosystem, including **React, Nuxt (Vue), Fastify and Deno**.
- Used **MongoDB** as document-based Database and **Redis** for caching.
- Deployed The application using **Docker** and **Kubernetes** on the **Scaleway** platform.

Triweb 📅 *Mai. 2021 - Dec. 2021*
Web Designer

- Designing **turnkey** UIs using **Adobe suite** (**Photoshop Illustrator**).
- Transforming design into websites using a company-made **CMS** and basic web technologies : **HTML**, **CSS** and **Javascript**.
- Helped creating videos occasionally using **Adobe After Effects** and **Adobe Premiere Pro**.

PERSONAL PROJECT

Ruvy 📅 *2023* 📍 *Front-End Framework*

- A *second* attempt at creating a better **Front-end** React-like framework using **Typescript**. It includes a simple **Router** and a key-value globally-available **Store** system.
- It is unit tested using **Vite** and **Vitest**.
- A simple Documentation website is available. Also, You can find it on GitHub and NPM.

Portfolio Template 📅 *2023* 📍 *Template*

- An *open source* interactive and dynamic portfolio website template inspired by the slick **Vercel** website, created using **SvelteKit**. The repo is available on GitHub, and you can check my deployed portfolio too.
- Offers a simple and easy-to-extend parameter system.
- Automated deployment to **GitHub pages**.

EDUCATION

ISTIC Borj Cedria 📅 *2017-2020* 📍 *Ben Arous, Tunisia*

- Industrial Computing: Embedded Systems
